

GOOD WORK FOR OUR YARD

Good results were obtained by the committee of Navy Yard men on their trip to Washington. All the organizations are pulling together. Team work counts. There is more work needed to keep the present force. We must be on our guard all the time to secure a sufficient flow of work. It is up to the workmen to produce record work and show efficiency in every way, in production and character of work.

PRICE TWO CENTS

MOVE TO BREAK UP REVOLUTION AMONG GERMAN LABORERS

(By Associated Press)

Duesseldorf, April 1.—Soldiers of the workmen's army of the Ruhr district must make a delivery of their arms to local authorities before April 10 under the agreement reached between the government and the committee of the workmen's general conference at Essen today. They will not be considered revolutionists if fighting ceases throughout the district by noon tomorrow. The commander of the communist troops reports Brussels gave a pledge to the conference for the strict observance of the agreement.

He declared he had really a good army but could not continue fighting because of lack of ammunition and asserted that all looting had been suppressed and that looters had been shot. The general strike throughout the Ruhr industrial and mining district has been ordered called off effective as far as possible on Friday morning. One feature of the last meeting of the workmen was the repeated reference of speakers of the alleged fact that the revolutionists "could not have lived but accept a final agreement if the Allies had not backed them."

R. R. WAGE SCHEDULE UP TO PRES. WILSON

FIRE CAUSES BIG LOSS AT DOVER DEPOT

Overheated Stove Starts a Blaze in Express Office.

The originating from an overheated stove caused a heavy loss at the American Express Company's office and store rooms in the Boston and Maine depot at Dover about 10 o'clock on Thursday night and also did considerable damage to the wooden awnings of the station platform.

Much express matter went up in smoke including costly shipments of cloth from the American Woolen Mills which was waiting transportation. The loss on the building is estimated at \$2,000.

MORSE BUYS GROTON PLANT

Washington, April 2.—An agreement to sell the Groton shipyard, Groton, Conn., to Charles W. Morse was reached yesterday by Shipping Board officials. It was formerly the property of the Groton Iron Works, but the Shipping Board holds a mortgage on it of \$1,716,000.

Under the agreement, Morse will complete contracts calling for six \$300-ton and three 900-ton ships at \$199.15 per ton for the smaller craft, and \$200 for the larger.

How's the old auto look?

LABOR LEADERS LOOK FOR QUICK SETTLEMENT

(By Associated Press)

Washington, April 2.—The whole railroad wage controversy was placed before President Wilson today for the third time since railroad labor filed its demand for a general increase in wages last summer. In a letter to the President, Chairman Jewell of the railway committee, which constitutes the labor party on the railroad wage board, said he regretted very much "to advise you of our failure to obtain any beneficial results from this conference." The employees, Mr. Jewell said, were keenly disappointed at the position taken by the railway executive committee which announced last night a deadlock on the withdrawal of the railroad members from the conference. Mr. Jewell did not ask the President to lay the wage controversy before the Railway Labor Board which is to be nominated by the President as provided in the transportation act and on which the public will pass representation. Union officials, President that at the request of the railroad they were "going to give the transportation act a fair trial" although they did not endorse any of its provisions. They took the position that with the breaking up of the joint conference the whole matter was made more difficult since the union membership was becoming restive.

POLICE AFTER WOMAN SINCE LAST DECEMBER

Stole Money in This City and Arrested in Waltham.

Mrs. Elizabeth Dillon who the police have been looking for since last December was brought here by Chief Hurley from Waltham, Mass., and lodged in Jail. Mrs. Dillon was a former housekeeper for Benjamin Fuller of Mechanic street and the day he found her missing also \$70 in money and a check for \$500. He placed the case in the hands of the local police and the wife charged her with grand larceny.

She was indicted at the last session of the grand jury in Rockingham County and the warrant for her arrest placed in the hands of the Waltham police.

Following the recovery of the money she and her husband, who was a former member of the crew of the destroyer Strikling at the navy yard, shipped to Philadelphia. Dillon got in trouble and his wife returned to Waltham when the police picked her up. The check taken with the money was never cashed. She will shortly appear in court and answer to the charge.

HANDS BADLY BURNED WHEN BOAT TAKES FIRE

Joe Chase Injured off Biddeford Pool this Morning

Joseph P. Chase of this city in charge of one of the coast guard gas line telephone boats was badly burned about the hands this morning when off Biddeford Pool, when the craft took fire.

He was rescued with difficulty by the two other members of the crew. The launch was bound for Portsmouth towing a large life boat when engine trouble developed and a tank fire explosion caused flames which the three men were unable to extinguish.

OLDEST SCHOOL TEACHER DEAD

Providence, R. I., April 2.—Henry W. Clarke, said to have been the oldest public school teacher in point of service in New England, is dead at his home in Newport. Mr. Clarke, who was in his 91st year, had taught in Bridgewater, Mass., and at Newport, a total of 52 years at the time of his retirement in 1911.

Pie and calling apples.
Cranberries, spinach, celery and lettuce.

Mrs. Ralph Jordan who is at the Portsmouth Hospital was much improved today.

MEXICAN REBELS ATTACK AMERICAN EMBASSY ATTACHE

(By Associated Press)

Washington, April 2.—Lt. Col. Robert M. Campbell, United States military attache at the embassy in Mexico City, his wife and son, American woman doctor named Paine, were attacked by rebels a few miles from Mexico City but escaped, the State Department was advised today. The attack took place at a small station on the railway from Mexico City while the attache was going for an outing. The rebels with dynamite wrecked the train and destroyed tracks for some distance. Colonel Campbell and the members of his party escaped without injury, advised today. The women of the party hid in the woods near the station until the rebels left. The state of the members of the crew and other passengers on the train was not stated.

SOCIALISTS TALK WORLD WIDE STRIKE

(By Associated Press)

Geneva, April 1.—Preparations for a world wide 24 hour strike on May 1st are being already made in Switzerland by Socialists, communists and other radical elements. Foreign agitators are active in the movement but they will probably be expelled before that day. It is virtually certain, however, that the Socialists will join in the movement, which was launched by Nicholas Lenin, Bolshevik Premier of Russia as an experiment to test the solidarity of the world proletariat.

Food eaten by church societies or other local organizations are numerous and all are well patronized.

The Mayflower search has now ended.

BEING particular pays you. Always select the finest toasted corn flakes you have ever known—Kellogg's. Select them for their flavor, which so enhances the natural sweetness of fine, white corn that you save sugar every time you serve them.

Select them for the healthful, energy-making elements of the kernel which are waiting you under the crisp, toasted surface.

Always delicious, because we take them hot from the great ovens in our modern kitchens and quickly place them in our "waxtite" packages guaranteed by this signature—

W. K. Kellogg

Every grocer everywhere sells Kellogg's every day.

Kellogg's
TOASTED CORN FLAKES

LOSS OF SHIP CHARGED TO FLETCHER

**Captain Long Testified That
He Failed to Issue Convoy
Orders and Left Ships
Open to Attack.**

Washington, April 1.—Loss of the transport Antilles off the coast of France on Oct. 1917 was attributed to Admiral William B. Fletcher, alleged disregard of instructions issued by Vice Admiral Sims, according to the testimony before the Naval court of inquiry as to the reason for Rear Admiral Fletcher's removal from the command of the fleet naval station, presented by Captain Byron C. Long, operating officer on Sims staff at London.

When the Antilles was struck by a torpedo and sunk, the convoy said Captain Long was proceeding in single formation. Adm. Fletcher had been ordered to issue general orders to all convoys that they should proceed in abreast formation. No such instructions were ever issued by Adm. Fletcher and every convoy from fleet under Fletcher's administration sailed in single formation, which left the transports open to attack. The abreast formation with the flanks protected should have been evident as being the proper protection.

UNION HOLY WEEK SERVICE

The last in a series of special services held during Holy Week was held last night in the North church chapel. The pastor of the North church presided. The pastor of the Court Street Christian church read the Scripture and offered prayer. The Rev. Elmer F. Nowell and two hymns of the Methodist church spoke on the general subject, "The Church in Relation to the World." Mr. Harry Hillman was the first speaker. Mr. Hillman spoke on "The Men Needed in the Pulpit to Save the World," he said in part, "The kind of men needed in the pulpit are the kind that we have here now. One of the first requisites of the man in the pulpit is his own life. Not what he says so much but his acts. He must have a Christ vision. In speech he must be faithful yet firm. People like a real leader; the minister must be capable of leading. The ministers have a hard time and it is up to the laymen to make it as easy as possible for the minister. The keynote of the thought

presented in these sermons is that the church is but a means to an end. The pastor is the one who guides the church on its way to the end. The next speaker was L. C. Schumacher. Mr. Schumacher spoke upon the thought of "The Men Needed in the Pulpit to Save the World." To many who sit in the pew demand upon the man in the pulpit to save the world. The church primarily is a vision, a voice. The world is so absorbed that it has lost the vision of God. It is the mission of the church to open the eyes of the world to see Jesus Christ. The layman should help the minister interpret God's word to the world. Such is expected of Christian America in this reconstruction period. We must get into touch with the great dynamic Christ Jesus. We need men in the pulpit with a world vision. The world's problems are not to be solved by the able men and women in our churches; they are to be solved by the boys and girls. The hymns in the pews must give must lead on that the boys and girls may get a good start toward solving the world's problems." Rev. Mr. Nowell took for a text the 16th verse in the 16th chapter of St. Mark's Gospel: "Go ye into all the world and preach the Gospel." These are the words of the living Christ to the apostles. The duty of Christians is to preach the Gospel to the world. The Gospel is to save the world to the Christ ideal, so that the Kingdoms of the earth may have so much of God in them that his Kingdom may come. The Christian church has the greatest opportunity now that she has ever had to save the world. We know the needs of the world now. The cross is to be lifted up. Christ calls us to do our part to rebuild the world. When we get the Christ vision that has the whole world in it the old church will be benefited. The money that we give goes to help the needy. In the name of Christ we ought to help the poor and needy. We ought to go and tell the peoples of the world the word of the immortal son and of the God that is hid with Christ in God. Christ said: Go ye into all the world and preach the Gospel. If you don't want to go or you can't go then give to send others. If the Christian church had done its work in the world there never would have been a world war, nor bolshevism. The whole world for Christ should be the slogan of Christian people. So many are bent on pleasure and self that they do not see the millions in the world that are in want. What the church needs is the right kind of equipment with the right vision of Jesus Christ. To get this right kind of equipment and to fight sin and vice is to get the Pentecostal power. Let the churches seek it till they get it. Mrs. Ethel Seaver Hill rendered a musical solo.

These Union services have been interesting and helpful. The addresses have been helpful, the music has been inspiring and the attendance has been very good. As a result of the services the churches meeting will go forward with greater life and strength.

Will Not be One Day Without

PE-RU-NA

This Lady TELLS Her FRIENDS

Mrs. Mary Frick, 507 Bornman St., Belleville, Ill., is just one of the many thousands of ladies throughout the country who, after an agony of years, have at last found health, strength and vigor in PE-RU-NA.

Her own words tell of her suffering and recovery better than we can do it: "I suffered with my stomach, had awful cramps and headaches so I often could not lay on a pillow. Saw your book, tried PE-RU-NA and got good results from the first bottle. To be sure of a cure I took twelve bottles. I have recommended PE-RU-NA to my friends and all are well pleased with results. I will not be one day without PE-RU-NA. Have not had a doctor since I started with PE-RU-NA, which was about fifteen years ago. I am now sixty-three years old, hale, hearty and well. Can do as much work as my daughters. I feel strong and healthy and weigh near two hundred pounds. Before, I weighed as little as one hundred. I hope lots of people use PE-RU-NA and get the results I did." An experience like that of Mrs. Frick is an inspiration to every sick and suffering woman.

If you have catarrh, whether it be of the nose, throat, stomach, bowels, or other organs, PE-RU-NA is the remedy. It is not new; it is not an experiment. PE-RU-NA has been tried. PE-RU-NA has been used by thousands who once were sick and are now well. To prevent coughs, colds, grip and influenza and to hasten recovery there is nothing better.

PE-RU-NA will improve the appetite and digestion, purify the blood, soothe the irritated mucous linings, eradicate the waste material and corruption from the system. It will tone up the nerves, give you health, strength, vigor and the joy of living. Do what Mrs. Mary Frick and thousands more have done—try PE-RU-NA. You will be glad, happy, thankful.

Tablet or Liquid. Sold Everywhere.

MOOR BRIDGE FOUND FLOATING IN RIVER

Dover, April 2.—A portion of the Tobinella bridge which spanned the Salmon Falls river, near Guppy's Cove and over which one was obliged to pass in going from the Walnut Grove section by Rochester into Berwick via the Hingham school house, which bridge was swept away by the ice Sunday night was rescued by some men as it was floating down stream in the vicinity of the Hanson feed house and towed in shore and "moored" along shore just in the rear of the ice house. This section had gone over the Mast Point dam, some of the officers looking as though they could be out to some use again.

Where the other half of the bridge is not known but it is thought that it is lodged up stream somewhere. It may have come down stream during the night, but no one reported seeing it. One portion of the bridge was reported yesterday morning in the Marsh House Cove. Whether that was the section that was rescued last night down here near the ice house or whether that is the missing section, has not been learned.

SOUTH MAY FURNISH 36TH STATE

New Orleans, La., April 1.—Women suffrage leaders are predicting that Louisiana will be the 36th state to ratify the federal women's suffrage amendment. The legislature will meet May 10.

MISCREANTS DO DAMAGE

The police are on the lookout for boys who have been breaking glass at the old Jaffrey mansion, and several boys were taken to the station on Thursday afternoon and given severe reprimand for trespassing on that property. Some of the wrecks in that vicinity have been running riot in the old mansion and the garden adjoining. Windows have been broken in and other damage done. In the future a sharp look out will be kept for these intruders.

The local florists are busy with Easter orders and final preparations for Easter will be made tomorrow at the local churches.

Now that the roads are getting in better condition many people are getting out their automobiles for the season.

FROM HEAD TO FOOT

The man in a custom tailored suit looks the part of a gentleman.

Portsmouth, N. H., Friday, April 2, 1920.

Cold Storage a Blessing.

Cold storage is a subject which receives much attention from legislators and others who feel that the system is used in many cases for withholding foods from the markets for the purpose of raising prices. It is probable that this is done in some instances, but it may well be asked if it is any worse to hold food articles in cold storage than it is to hold such as do not have to be placed in refrigerators for preservation. How about wheat, corn and other grains? Isn't it as blameworthy to hold back such things as these when prices do not suit as it is to hold back products that are in cold storage? And how about coal? Does any one suppose that if this were forced upon the market as fast as it could be produced prices would be such as they are now?

With the hoarding of commodities for the sake of maintaining or raising prices the public has little patience. The government has undertaken to stop the practice, but with indifferent results. The prices of the necessities of life do not come down in proportion to the amount of regulating that has been attempted.

There is something wrong somewhere, and not all of the trouble is behind the doors of the cold storage houses. Clothing and shoes do not have to be kept in cold storage, and it is to be noticed that these are not cheap.

The regulation of cold storage is being considered by the Massachusetts legislature. It is proposed to enact a law making it necessary to mark all goods placed in cold storage with the dates on which they are taken in and taken out, and to prevent the holding in cold storage of any article for more than six months. A supporter of this measure claims that "thousands of children" have died in Massachusetts from malnutrition, and that the cause is high prices of foods due to hoarding in cold storage for the purpose of enhancing the prices.

The claim sounds somewhat extravagant. While prices are high, it is to be doubted that large numbers of children are dying in Massachusetts or any other part of the country for the lack of proper nourishment.

The cold storage business, so far as it is liable to unfavorably affect the public health, should be kept under careful supervision. If there is illegal hoarding of foods the offense should be properly dealt with, but the attention of the authorities should not be confined to the cold storage plants. Not all of the trouble is there.

On more than one occasion this paper has expressed the conviction that cold storage is one of the very valuable developments of the time, and its view has undergone no change. Without this means of keeping perishable foods prices would be higher at certain times of the year than they are now.

The fight against hoarding and manipulation for the purpose of enhancing prices may well be continued, but it is a mistake for the authorities or anybody else to imagine for a moment that cold storage as an institution is not a blessing instead of a curse.

WHAT DO YOU KNOW ABOUT PORTSMOUTH?

What jobs Portsmouth men acted as conductor and engineer on the passenger train between this city and Concord for so many years?

What bakery on Hanover street was famous for brown bread and beans?

Where was the Pernal lumber yard located on Market street?

Where did the steamship John Brooke land here and where did she run?

What famous admiral of the Civil war died at the Portsmouth navy yard?

What political party supported a campaign company known as the "Italians"?

Where was the former Adelle box factory located?

What two Portsmouth women were noted for their long journeys on foot?

Who was the former photographer on Congress street noted for his tin-type work?

What type of a boat was the undine?

What retail local boxer was killed by a white bull in the early days of the P. A. C.?

What branch of mechanics were engaged in the first stock of the Francis Jones Brothers Co.?

Where on Ballington street was the grocery store of William Allen & Son?

Who was John O. Ayers and what position did he fill for many years?

Who was Freeman B. Pomeroy and what position did he fill at the B. & M. depot and later in the police department?

What firm now occupies the former store of Ayers & Locke on Market street?

On what holiday was the Soldiers and Sailors' monument dedicated in Goodwin Park?

What house on Ballington street was the scene of many social gatherings of high ranking naval officers?

What suit against the city relative to some steam fire engine attachment was in the court for so long?

How many years ago did the last burial take place in the Point of Church cemetery on Mechanic street?

NAVY YARD NOTES

Marine With Umbrella

A Marine carrying an umbrella is as much known as the man who invites his friends to his cellar to sample his stored wine before January 10. Anyhow, one of them, a recruit, helped up "fatherhood" on Sands street in Brooklyn in a recent rainstorm. At the very outset of the recruit's journey two older marines

met him, took the umbrella away from him, broke it up before his horrified gaze, and gave him a severe lecture on military proprieties.

There is no service regulation to prevent the carrying of umbrellas by uniformed men, but there is an unwritten law of the Marine Corps which puts taboo on the umbrella.

Will Be Big Sale

No sale to the public in recent years will likely attract any more attention than the coming metal sale in which the government will offer a million and a half of the product of the yard's smelting plant. This sale will not alone appeal to junk men but will likely bring in many who wish to stock up their foundries in several places.

More Teams Coming in

Two more driving teams have entered the officers' tournament. No. 7 to be known as the Eagle Hunt, and No. 8 Miss Sweepers. The contest will extend two weeks longer than originally planned and will close on April 24.

Recruits at Manchester

Henry L. Mattle, a chief housekeeping mate, recruited at the Manchester, N. H. recruiting station on Thursday and was sent to the receiving ship South-ey for duty.

Attending Meeting

Paul N. Skilton of the Industrial Department drafting firm is attending a meeting of the executive committee of the New Hampshire State Federation of Labor at Manchester today.

Much Interest in Sports

The local yard has never before given so much time to bowling as the past winter. The sport is heartily indulged in by both civilians and officers who find the exercise a great thing to keep them in trim. The officers' tournament at present is attracting men ashore and aboard ships. Basket ball is another game that has called out the younger element and will continue until June ball has the call.

To Test Radio Work

The coast guard cutter Osprey here under improvement of her radio system, will sail this afternoon for Portland. Before leaving the cutter will make a test of the radio system and will be accompanied out- side by the mine planter Swan to assist in the wireless work.

Sailor Commended

Secretary of the Navy Daniels has commended Stephen Thomas Connolly, contractor, attached to the U. S. S. Massachusetts, who lost his life February 20, in attempting to save another member of his ship who fell overboard during target practice. Connolly saved John P. Neary when the latter was about to drown, by

throwing him a life line and swimming to his aid, only to drown through exhaustion. He enlisted in the service Sept. 14, 1918 and lived with his father Stephen at 231 Second street, South Boston.

Big Docking Job

At eight o'clock this morning the transport George Washington was floated into drydock at the Charlestown navy yard. It will be the largest ship ever docked at the yard and extra precautions will be taken to guard against accident. The ship is 25,570 tons and 727 feet long.

THURSDAY AFTERNOON CLUB ENJOYS WHIST

The Thursday Afternoon Club met at N. B. O. P. Hall yesterday and enjoyed whist. Favors went to Mrs. Marguerite Davis who received the first, a double boiler; the second to Mrs. Merle Higgins, pair of bath towels; and the third to Mrs. Fred Heiser who took two packs of playing cards. Mrs. Helen McDonough was in charge of the arrangements assisted by Mrs. Jennie Lenville.

THE MAN ABOUT TOWN

Not in years has there been such a display of sorrow and respect for a young man called to the great beyond as in the sudden death of Kenneth O'Leary. He was of the type of young man that it was a delight and pleasure to have around. He was a clean, well bred lad who looked on the bright side of everything and who believed in good will to all men. His popularity extended to every member of the Knights of Columbus and other organizations of which he was a member. That was a wonderful tribute paid to him at the Church of the Immaculate Conception when hundreds of both young and old were present to pay their final respects.

Several members of the labor force, out of employment at the Atlantic Dye Works plant called at the Herald office today to thank the editor for the fair and impartial story of the trouble at the plant on Thursday.

Everything is being rushed at the Hotel Westworth by Landlord Tilton for an early opening. Several carloads of new furniture have been purchased and many new baths are being installed.

Why don't the government open the Hotel Champlain as a military hotel to relieve the situation here? This question is being asked many times daily by many officers. The property is being allowed to go to pieces and in a short time it will be most unattractive.

Certainly something should be done to improve the train service on the Portsmouth and Concord line and also the Portsmouth and Dover. It is some time since the government handed these roads back and it is up to the management to speed up things.

LOCAL COMMITTEE IN INTER-CHURCH MOVEMENT

Big business men the country over are lending support to the Interchurch Movement. John D. Rockefeller Jr. is arousing great interest in his address in larger cities. He has recently said that the movement cannot fail. Each denomination is conducting its own campaign which will become intensive April 25 to May 2. Interchurch workers seek to relate the parts to the whole and will endeavor to secure through committees, support from friendly citizens.

Rev. Charles P. MacGregor has succeeded in forming an organization in this city. Among those who will cooperate are: B. Curtis Matthews Jr., John M. Melhee, Lewis B. Staples, Frank Randall, E. H. Baker, Frank C. Remick and Leroy C. Schmalzried. Rev. E. W. Pond of Raymond will also assist in this effort.

Announcements are being made in various ways concerning the meeting in North Congregational church Tuesday night, April 6, at 7.30. In one hundred twenty-five magnificent slides the results of the survey will be presented. These slides show how Protestant churches have crowded each other at some places, and neglected other places. Magnificent slides will also illustrate great hymns. Among other facts to be brought out is that twenty-five million boys and girls are not being reached by any church or religious organization in America. The names of the speakers have not yet been furnished. We are assured however that they will be men of national reputation. There will be no charge and no collection and the meeting is open to the public.

Jack Young, Mgr. of the New York Busy Bees store, and Samuel Halprin, General Manager of the Busy Bees chain of stores, are passing a few days here. Mr. Halprin is a brother of Philip Halprin of this city. They go to Portland on Monday to open a branch.

We Thank You

For the largest day's business we ever had, and that was last Saturday, and at this time we wish to say that if in the rush you did not get just what you wished come in and we'll try to make everything satisfactory.

BROKE HER ELBOW IN FALL ON STAIRS

Miss Mary Merrill of Rockingham, N.H., was removed to the Portsmouth hospital today for treatment of a fractured elbow which she sustained by a fall down stairs at her home Monday noon.

PEARSON'S EASTER SALE SAT- URDAY

UNITED SHOE STORES

29 MARKET ST. MORE FOR LESS OR WOODWORTHS

YOU CAN'T BEAT "OLD HIGH COST OF LIVING" BY BUYING UNDER THE TREES

Now that's rather a peculiar phrase and needs explanation. It's a known fact in merchandising that in order to get a great many customers' business you've got to serve them with fine fixtures, fine interiors, fine windows and have a few palm trees scattered around. It gives a feeling of quality and that quality feeling costs you at least three dollars a pair additional. What you buy in that type of store is a dollar's worth of fine fixtures, a dollar's worth of fine interior, a dollar's worth of palm tree and a seven dollar pair of shoes for your ten dollar bill. Now that business method must be good for it has

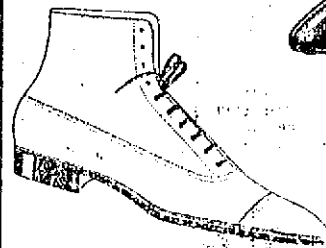

a host of followers, but nevertheless it is directly opposite to the "UNITED" method. Our business and our concern has been built on economy, economy of the strictest nature, economy in fixtures, economy in distribution, economy in management. For it required economy and strict economy for us to gain our present reputation as the greatest value giving shoe retailers in the business. So if you're interested in good value, full value for your money, get into the "United" store far from the palm trees and we'll show how the UNITED FACTORY METHOD OF DISTRIBUTION "BEATS" Old High Cost of Living.

ALL READY FOR EASTER

United Shoes for Men

VALUE Sound substantial Men's Shoes at UNITED RIGHT prices. All that we ask is "May we show you the UNITED line?" Examine the material, the workmanship, the construction. Use your own good judgment. If they don't look like good shoes, if it doesn't look like good material, pass them by. But see them at least for only by examining them can you know their worth.

OBSEQUIES

Robert Emmett O'Leary

The funeral of Robert Emmett O'Leary took place this forenoon at half past nine from the Church of the Immaculate Conception and was largely attended. The service was conducted by the pastor, Rev. D. Alex Sullivan, who also read the committal service at the grave. A delegation of 150 members of the Portsmouth Council under the direction of William P. McFalls of Columbus, accompanied the

remains from the home to the church and after the funeral service marched to the cemetery. The bearers were Christopher Heffernan, Michael Reardon, Frederick Griffin, Peter Furlan, John Connors, James Jones.

The floral tributes were many and beautiful and included many large set pieces, the large display giving more evidence of the esteem in which the young man was held.

Interment was in Cavalry cemetery members of the Portsmouth Council under the direction of William P. McFalls of Columbus, accompanied the

AT THE WOMAN'S CITY CLUB

At the Woman's Building on Thursday afternoon, the members of the Woman's City Club were entertained by a very interesting illustrated talk, "Some Quaint Italian Church Celebrations" given by Miss Frances Mathes. Miss Mathes went into detail, not only with reference to the church festivals, but with the history of many of the famous Italian cities. The introduction of local incidents and color

was interpreted by an observant eye and appreciative mind added greatly to the charm of her story.

The serving of tea for the afternoon was in charge of Mrs. George Wilson, who presided, and who was assisted by Mrs. Wallace Lear, Mrs. Charles Peabody, and Mrs. John Fitzgerald.

On Thursday, April 8, supper for club members will be served at 6:15 under the supervision of Mrs. Mary Lane Bickford, assisted by a committee. During the afternoon of the same day, Miss M. B. Rhodes of New York

will exhibit a garment known as "The Gown of the Hour." This is a very attractive gown designed for professional, business, and street wear, modeling, campling, etc. and is receiving almost universal endorsement. Miss Rhodes will again in the evening at 8 o'clock, exhibit the gown to any persons interested.

Don't deny Easter musical programs for publication. The Herald must insist that the same be sent in today.

GARBAGE COLLECTION A PROBLEM

The garbage collection in this city is getting to be a problem, which is causing the Board of Health no end of worry. Of late there has been a number of collectors who have failed to make any profit in raising dogs and have quit. The result is that there has been a lot of uncollected garbage about the city. In this cold weather it has not been much of a nuisance but with warm weather it will create a condition which will have to be cared for. The Board of Health have drawn up an ordinance to cover the collection of garbage about the city and this was ready to be presented to the Council in their last meeting. The Board in their report to the Council suggest one or two methods, one that the city make the collections and the other that it be let out to the highest bidder under proper supervision, or that the city be divided into districts and that the bidders be made responsible for the collection in their respective districts, and under sanitary conditions. In all probability the report will be

Kittery citizens with others in nearby towns have petitioned the adjutant general for permission and authority to raise its unit of such company.

General Division will shortly come to Kittery and make plans to meet those who made the application received by the state military authorities at Augusta.

The military department of the northeast has called on the adjutant general of Maine to submit his recommendation for the national guard organization in this state, as Maine's quota for the defense of New England and which will be used in the reorganization of the High Division, also with a view of complying with the national defense act.

The town has many other young men in the plant are for a company and these should be little, if any work at all in finding the required quota in the enterprising town across the river.

ATLANTIC HEIGHTS

Atlantic Heights now boasts a good sized little colony of people. At present there are about 100 families who reside there and an average of four persons to a family. Many navy yard workmen as well as Atlantic Corporation employees reside here and there are probably not more than six houses vacant at the Heights.

Mr. and Mrs. Menden of Portland, Me., are to take up their residence at 128 Concord Way. Mr. Menden is employed at the navy yard.

THE D. F. BORTHWICK STORE

In every neighborhood there's hospitable Homes where the Furniture attracts guests like magnet.

There's a certain type of home where the young people gather on a Sunday afternoon or evening for a social cup of tea or a gay supper. It is the home of young people who love to entertain—because they know that the furniture and decorations are right and will bear a critical scrutiny.

Correct furniture and hangings do more to overcome the shyness and self-consciousness young people sometimes feel than almost any other element in their lives.

The furniture Margeson Brothers are showing is the sort which will make of your home the magnet which draws your neighbors and makes your young people feel proud to entertain their friends.

COAL JUMPS \$1.00 A TON LOCALLY

Dealers Act With All Other Hard Coal
Dealers--Standard Sizes Will Be \$14.00
a Ton

The price of coal made an advance of \$1.00 a ton on Thursday in this city and it was not an April fool joke at that. The advance by the dealers in this city is following the example of all of the dealers through New England and possibly the entire country. This will make the price of the standard grades of hard coal \$14.00 a ton, the former price being \$13. At the present time this city is the lowest quoted. Boston advanced their prices so that the standard sizes are \$11.50 per ton. Portland, Me., jumped two dollars a ton to \$16. Manchester this state went to \$16.00 per ton. This leaves Portsmouth fifty cents a ton cheaper than Boston and \$2.00 a ton less than Portland and Manchester.

The local dealers have been giving their customers warning for some time that there would be a sharp advance on April first and as a result there has been a great rush of orders and a great many people have all of their coal in for next winter. The dealers refused to accept orders for coal other than at the price when actually delivered, but so as to get in as much as possible they have pressed into service every available wagon and for the past two weeks or more every delivery team has been used in hauling coal. The result is that during this time there has been an extraordinary amount of coal handled.

In a few days of normal living, it was estimated to drop the price of coal April first and to gradually increase it until the maximum would be reached by fall. Dealers say that they don't know if this price will remain long, they themselves are in the dark.

The cause for the increase price is the fact that the hard coal miners' agreement has run out on April 1, and they have asked for an increase of 15 per cent, based upon what the soft coal miners have been granted. The

wholesalers have notified the dealers that the buying price is off, that all coal will be shipped and the price made at time of shipment, but give warning that the increase will be at least \$1.00 per ton. There has been no increase in rail freight, but there has been an advance of 50 cents a ton on water freight. The greater part of the coal coming to this city now is by rail, while as in former years the water carried coal was the only coal used here. This city was the unloading point for not only this city and vicinity but the entire state of New Hampshire and some of Maine.

At the present time there is plenty of coal in this city, as there has been one or two barges unloaded and a great amount come in by rail.

A NEW EASTER TOP-COAT?

The winter overcoat will be a little out of "keeping" with Easter. "The spring weight's the thing." Here are all the smartest models for the season, models designed by such style producing tailors as The Stein-Bloch Co., B. Kuppenheimer & Co. and Roberts-Wicks Co. The aristocratic "Chesterfield" is the model popular with the "conservative-in-style" men. Close-fitting, belted styles are the favorite with the young and the young-feeling fellows. \$25.00 to \$50.00.

Henry Peyser & Son
